

November 12, 2021

Guests of Mid-Sun,

Please be aware that as of Monday, November 15, Mid-Sun is required to rescreen all guests of the Community Centre to ensure they have valid proof of vaccination. We received a letter from AHS stating the following:

Dear Operator,

Please be reminded that the Government of Alberta (GOA) has announced that the QR code generated at [Covid Records Homepage](#) will be the only valid proof of vaccination on and after November 15, 2021. All eligible businesses participating in the Restriction Exemption Program (REP) ([Appendix A CMOH Order 45-2021](#)) must download the AB COVID Records Verifier app via the Apple App Store or Google Play Store.

Some important things to keep in mind regarding the QR codes:

- On and after November 15th this will be **the only** valid proof of vaccination in Alberta. Paper copies of vaccine records can no longer be accepted.
- For operators that have screened patrons prior to Nov 15th and maintained records for repeat customers, **those customers must be rescreened using the QR code app to verify two doses have been received.**
- Patrons who do not have a QR code can quickly get their records online here: [Alberta Covid Records](#) or can receive a printed copy free of charge from any Alberta Registries office.
- It is mandatory to verify the QR code against a valid piece of government ID for those 18 and over. Patrons 12 -17 only need to provide the QR code.
- The Alberta Covid App cannot read QR codes from other provinces. Examples of acceptable proof of vaccination from other provinces, military, first nations, can be found here: [Samples](#)

Mid-Sun will not be making any exceptions to the above requirements. An example of what the QR Code looks like is below. Please ensure digital pictures are as clear as possible (no fuzziness!).
